

eBusiness solutions

Web-based solutions that simplify the furniture procurement process and help you more effectively manage a range of facility management tasks. With these solutions we can help you:

Save money

- reduce P.O. costs
- reduce off contract spending
- avoid costs through inventory re-use

Save Time

- minimize process complexity
- enable faster orders

Increase Efficiency

- reduce errors
- collaborate more effectively
- get information quicker

Steelcase eBusiness solutions provide an integrated package to assist you in managing your facilities. A customized web site will be your portal to innovative products and comprehensive services that enable you to:

MANAGE INFORMATION

Save valuable time through the easy access to, and management of information.

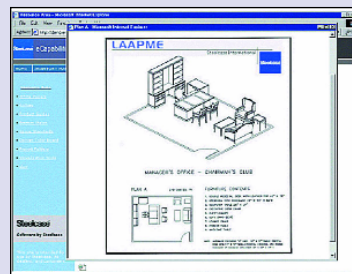

- inquire about the status of an order
- review past purchases
- share project information, CAD drawings, contact lists etc.
- find product and workplace information
- store important data for future reference

VISUALIZE SOLUTIONS

Visualize potential solutions quickly in order to create effective workspaces.

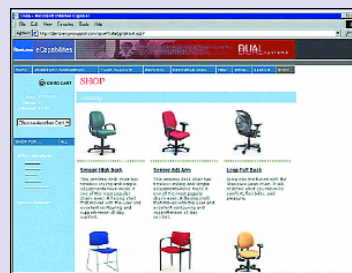

- view photos or 3D images
- compare options and pricing
- review standards
- see color palettes and product details

OBTAIN PRODUCTS AND SERVICES

Streamline the actual purchase or service request process, saving time and money.

- view catalogs tailored to your standards
- approve project quotations on-line
- place orders online 24/7
- integrate with major procurement systems
- receive quick approval from decision makers
- get order information at any point in the process

MANAGE ASSETS

Improve and simplify the management of furniture assets.

- take inventory
- track product condition and location
- reuse existing products
- manage churn rates
- dispose of unused furniture

Do what you do better.™
